CHMS to Provide Full Association Management Services to the Association of Technology, Management, and Applied Engineering

Capitol Hill Management Services (CHMS) is pleased to announce that it has been selected to provide full service association management services to the Association of Technology, Management, and Applied Engineering (ATMAE).

ATMAE is an exciting, professional association with more than 1,000 innovative members who share technology, management and applied engineering ideas, research, and applications that positively impact the future. Since 1967, ATMAE members, who are college and university educators, administrators, students, and industry professionals, have been dedicated to solving complex technological problems and developing the competitive technologist and applied engineering workforce. ATMAE does this through specialized accreditation for 2 and 4-year degree programs, personal certifications, an annual national conference, publications, awards and scholarships, career center, a website filled with valuable content, and numerous opportunities to develop professionally.

CHMS will be providing full-service administrative and operational support to ATMAE and working with the association's Board of Directors to achieve the highest level of efficiency and success for the organization.

"Through its committed members and outstanding programs, ATMAE serves as the premier leader in developing technology, management, and applied engineering disciplines in academia and industry," said John A. Graziano, Jr., CHMS President. "We are pleased to work with the association's dedicated Board of Directors and volunteers in ensuring a successful future."

About CHMS
