## **CHMS to Provide Full Association Management Services to the Computer Science Teachers Association**

### ***Capitol Hill Management Services Continues to Grow***

Capitol Hill Management Services (CHMS) is pleased to announce that it has been selected to provide full service association management services to the Computer Science Teachers Association (CSTA).

The Computer Science Teachers Association is a membership organization that supports and promotes the teaching of computer science. CSTA provides opportunities for K-12 teachers and their students to better understand computer science and to more successfully prepare themselves to teach and learn. CSTA was founded by the Association for Computing Machinery in 2004, as part of its commitment to K-12 computer science education. Since then, CSTA has grown into a dynamic and vibrant organization of more than 22,000 members from more than 130 countries. These members include elementary, middle, and high school teachers; college and university faculty; supportive members of industry and government, school administrators, other non-profits, and parents.

CHMS will be providing full-service administrative and operational support to CSTA and working with the association's Executive Director, Dr. Mark Nelson, Ph.D., MBA, CAE, senior staff, and Board of Directors to achieve the highest level of efficiency and success for the organization.

"We are very excited to partner CHMS to support our mission at this pivotal moment for K-12 CS education," said Dr. Nelson. "Meeting the needs of today's CS teacher is a daunting task, but selecting CHMS as our association management partner has renewed our confidence in our ability to deliver value to CS teachers and their communities."

"Improving computer science education is an essential aspect of ensuring that our citizens acquire the knowledge and skills that they need to succeed in an increasingly technological world," said John A. Graziano, Jr., CHMS President. "We welcome CSTA to CHMS and look forward to providing the support and services they need to accomplish their important mission. We are pleased to work with Dr. Mark Nelson and the association's dedicated Board of Directors, staff and volunteers in ensuring a successful future."
