**The Society of Quantitative Analysts Selects
Capitol Hill Management Services
to Provide Association Management Services**

Capitol Hill Management Services Continues to Grow

Capitol Hill Management Services (CHMS) is pleased to announce that it has been selected to provide professional association management services to the Society of Quantitative Analysts (SQA).

The Society of Quantitative Analysts (SQA) was established in 1972 to encourage the dissemination and discussion of leading-edge ideas and innovations related to the work of the quantitatively-oriented investment professional, including analytical techniques and technologies for investment research and management. A national organization, SQA continues to be a pioneer in the use of quantitative investment techniques and its members include portfolio and risk managers, strategists, analysts, traders, regulators, asset owners such as pension sponsors and foundations.

“We welcome the Society of Quantitative Analysts to CHMS and look forward to providing the support and services they need to accomplish their mission,” said John A. Graziano, Jr., CHMS President. Working with this group of dedicated volunteer leaders from Wall Street will enable us to develop a strong partnership committed to the success of the organization that promotes leading-edge ideas and innovations relevant to the work of the quantitative investment practitioner. The knowledge of such ideas and innovations can assist SQA members in performing their functions and responding to the ever-quicken pace of change.”

About CHMS

CHMS is a consulting firm specializing in association management, non-profit development, government relations, and public policy research.
