**Capitol Hill Management Services
to Provide Communication Services
to the New York State Chemistry Council**

Capitol Hill Management Services Continues to Grow

Capitol Hill Management Services is pleased to announce that it has been selected to provide web-based communication services to the New York State Chemistry Council (NYSCC).

The New York State Chemistry Council is a statewide trade association that serves as the premier voice on chemicals, environmental, and health and safety issues that impact on chemical companies and the industry at large in New York. NYSCC serves its members by providing legislative and regulatory advocacy, information, counsel and support, as well as help them respond to the initiatives and concerns of elected officials, regulators and community groups.

CHMS will provide NYSCC with social media, website and other online communications services as well as analysis of web activity to identify both positive and negative trends and to suggest strategies for success.

“We welcome the NYSCC to CHMS and look forward to providing the support and services they need to accomplish their mission of serving New York State's chemical industry.” said John A. Graziano, Jr., CHMS President. We are pleased to work with the association’s dedicated Board of Directors, staff and volunteers in ensuring successful online communications for NYSCA’s members, supporters and the public.”

About CHMS

CHMS is a consulting firm specializing in association management, non-profit development, government relations, and public policy research.
